MILLIONS OF DOLLARS IN WHEAT.

Millions of dollars have been made in the rise in the wheat market. Men who are wealthy have increased their wealth. Men who were poor have suddenly become wealthy. This all sounds encouraging, especially to young men aspiring to become wealthy. This however is only one side of the picture.

While millions have been made, millions have been lost. Those who have lost are not prominent. They would conceal the fact from themselves, if they could. Some may have been speculating with money that did not belong to them. Some rich men have become poor. Some who possessed homes of luxury are probably penniless. The joy of the one class will not outweigh the sorrow and distress of the other. Millions of dollars made means millions of dollars lost. \$200,000,000 is said to have changed hands. Joy on one side, misery on the other. To one class, life presents only the bright side, to the other darkness that covets death is before it.

In the selection of officers or representatives, the highest consideration is the selection of those who will best serve the interests of the people. Many persons lose sight of this important feature and vote for men whom they like, or to whom they are under personal obligation or from some other selfish consideration. In choosing a representative of the people, the man who can best represent them is the man who should receive their support.

Having observed the record of Hon. F. S. Tavenner in the Senate of Virginia, I am fully persuaded at this time, he can better represent my interests and the interests of the people generally than could any other man from this county.

I am of this opinion for the following reasons: Senator Tavenner is a man who always does his work thoroughly. In the short time in which he has been in the Senate, he has secured a position of influence second to that of no member of the Senate; he is fully acquainted with the rules of that body and the mode of procedure and could do more for his constituents than even a man of greater ability. Believing him to be in a position to best represent the interests of the people of this district, I shall give him my hearty support.

First Blood for Va.

WASHINGTON, D. C., May 27.—The supreme court of the United States today overruled the demurrer of the state of West Virginia in the original proceedings against that state by the state of Virginia, in which the latter seeks to compel W. Va. to assume a portion of the indebtedness contracted by Virginia before the creation of West Virginia. The order was announced by Chief Justice Fuller who declared there could be no doubt of the jurisdiction of the supreme court in the case.

Awful Accident.

Mr. George D. Eaman, a laborer in the Virginia Veneering Plant at Keezletown, Va., was the victim of an appalling accident Tuesday afternoon, from the effects of which there is little or no hope of his recovery.

The unfortunate man lost his balance and fell into a seven foot vat filled with boiling water. His companions rushed to his assistance but not until he was shoulder deep in the scalding liquid.

He is a hard working man, 52 years of age, and has a wife and six children.

It is not necessary for Senator Tavenner to tell the people of this district that he would vote against the law, taking the selection of Commissioners of Revenue from the people. He voted against that law when it was passed by the Senate, and in doing so faithfully represented his constituents.

DeWitt's Carbolicized Witch Hazel Save does not merely heal on the surface; it penetrates the pores and promptly relieves pain, caused by boils, burns, scalds, cuts and skin diseases. It is especially good for piles. Beware of imitations. Sold by Walton & Smoot.

In Carroll county, in a isolated section of the Blue Ridge Mountains last Thursday night about midnight, Rev. Jos. Easter, a Dunkard preacher, was awakened, lured into his front yard, and assassinated, being killed with a shot gun by someone concealed. No reason can be assigned for the crime other than that Mr. Easter would have been an important witness in cases now pending in court, where certain persons in the neighborhood had been indicted for selling liquor illegally and for other lawlessness.

Stomach Troubles.

Mrs. Sue Martin, an old and highly respected resident of Faison's, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For sale at Schmitt's Drug Store. Samples free.

MRS. WILLIAM MCKINLEY DEAD

Canton, Ohio, May 27.—Mrs. Wm. McKinley, widow of President McKinley, died at her home in this city Sunday afternoon at 1:05 o'clock, after a few days' illness. The transition from life to death was so peaceful and gradual that it was with difficulty the vigilant physicians and attendants noticed when the end came.

There was no struggle, no pain. Mrs. McKinley never knew of the efforts made to prolong her life, nor of the solicitous hope against hope of her sister and other relatives and friends for her recovery.

MRS. MCKINLEY'S LIFE.

Born at Canton, O., August 8, 1847. Daughter of Jas. A. Saxton, banker, who died 1887.

Was cashier of the Stark County Bank, of which her father was the president.

First met Wm. McKinley while she was a teacher in the Presbyterian Sunday-school at Canton, of which he was the superintendent.

Married Wm. McKinley January 25, 1871, in the Presbyterian church, Canton.

Mother of two children—Kate, born Christmas Day, 1872, died June 1876; Ida, who lived only five months.

From 1877, when Major McKinley first took his seat in Congress, for 14 years she and her husband spent most of their time in Washington.

Was mistress of the White House from March 4, 1897, when her husband was inaugurated President until he died in September, 1901.

Died at Canton, O., May 26, 1907.

REPORT OF COMMITTEE ON RESOLUTIONS.

We, your Committee on Resolutions, beg leave to submit the following report:

Resolved, 1. That we endorse the program of the legislation adopted by the State Anti-Saloon League Convention at Charlottesville, Dec. 4-6, 1906, which is as follows:

Delegates representing the churches and moral forces of Virginia in the Anti-Saloon League Convention at Charlottesville, Va., Dec. 4-6, 1906, adopted the following legislative program.

1. That we seek to secure the passage of a measure that will clearly define the requisite qualifications and fix the limitations for voters in local option elections.

2. To require that all social clubs take out a regular retail liquor license at the regular price, and with the usual restrictions as to Sunday selling; and since there is some question as to the sufficiency of law to cover the point, we recommend that social clubs be prohibited from furnishing their members liquors in towns, counties, and districts where license is not granted to bar-rooms.

3. That our State chemist be required and empowered to analyze mixtures supposed to contain intoxicating liquors upon the official request of any State or municipal officer, and that a certificate over the chemist's signature and seal of office shall be evidence in a court of law.

4. To amend the existing laws so as to bring distilleries under the operation of the Mann law.

5. To amend our local option law so as to apply to wards of a city.

6. To prohibit agents or dealers from soliciting orders for intoxicating liquors in no-saloon cities, towns, counties and districts.

7. To secure an anti-blind-tiger law with adequate penalties by confinement in jail, and such bond as will secure respect for and obedience to the law.

8. That we call upon the Christian and moral forces of the State to join in seeing that men are named as candidates who are favorable to these reasonable measures, and in supporting such candidates.

The whole program of legislation is a question for the Christian and moral forces to settle. Two-thirds of the people in Virginia live in no-saloon territory. There is no excuse for allowing the liquor men to rule and select candidates. Too often the moral forces wait until it is too late, before they become active. Now is the time to begin work. Let good men here and there touch another. Let the movement spread and become general, until there is a demand for candidates who will represent the people rather than the liquor interest.

Resolved, 2. That we reaffirm our position on law-enforcement and urge all officers and citizens to greatest endeavor to procure good results where needed.

Resolved, 3. That we hereby tender our hearty thanks to the pastor of this church, his good people, and all the brethren and friends of New Market who have assisted in our lavish entertainment and so hospitably opened to us their hearts and homes on this happy and helpful occasion.

Last Monday morning while Ed Lucas was cutting loose posts at Triplett's crossing the top of a tree fell on a telephone wire bending it down across the railroad track. This remarkably cold weather for this time of the year has certainly put an anxious and dispiriting look on the farmers.

We believe "the sun do move," and if such be the case it is certainly moving farther away from us, judging by the continued cold weather this spring it is more likely that the "North Pole do move," and it is moving our way. It will likely discover us and save some hero the trouble of discovering it.

Vegetables and corn are struggling up through the cold and unfriendly ground to a still more unfriendly sunshine. Truly December is as pleasant as May.

COLUMBIA FURNACE.

Mr. Jas. Cleland, who has been sick, all the spring with grip, is now able to be around and is slowly improving.

Politics is very little spoken of. Very quiet, but judging from expressions of quite a number of voters there is a great many here, who will not only take pleasure in voting but are really anxious to have the pleasure of casting their vote this year for Mr. Jos. Wisman, for Supervisor of Madison district.

It may be that some might say, he is a new man in our district. He is no stranger at this precinct and we will venture the assertion every voter here knows him well. The opinion of quite a number is that he ought to announce himself a candidate. SUNNY SOUTH.

Sent The Invalid a Long Green Snake.

WAKEFIELD, MASS., May 27.—Miss Mary Kelly, a pretty teacher in the Hamilton school of this place, is seriously ill as the result of what may have been intended for a joke. She was recovering from the grip when late yesterday an unknown man delivered at the door what appeared to be a box of candy. Miss Kelly opened it herself in bed, and the moment the cover came off out leaped a long green snake, which crawled about the bed, frightening her into convulsions. After the snake was removed she suffered a relapse, and today is in a serious condition. The police are trying to trace the box.
